Each paper, letter, or communication relating to an international application during the international stage for which a date of filing is to be obtained as of the date of mailing must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must: (1) be signed; and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

The label number need not be placed on each page. It should, however, be placed on the first page of each separate document, such as a new application, amendment, assignment, and transmittal letter or a fee, along with the certificate of mailing by "Express Mail." Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.

Attn: Receiving Office – United States

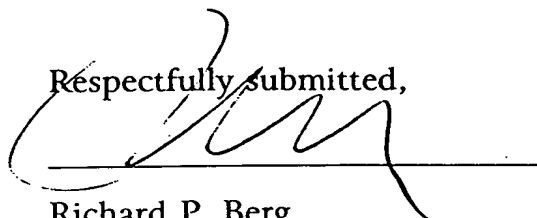

Sir:

On November 23, 1999, a Notice of Confirmation of Precautionary Designations was filed on behalf of the Applicant adding the United States of America as a designation and identifying four individuals as being the Applicants for that designation. Enclosed herewith is a copy of the papers which were filed in that regard and also a copy of the postcard receipt received from the United States Receiving Office acknowledging receipt of same. It is to be noted that the papers were filed well in advance of the 15-month deadline date for adding precautionary designations.

Given the fact that the precautionary designation of the United States was confirmed in a timely fashion and given the fact that the above-identified Application was published without the United States being identified as a designated country, the United States receiving office is respectfully requested to arrange for re-publication of this Application adding the United States as a designation.

The Commissioner is authorized to charge any additional fees which may be required or credit overpayment to deposit account no. 12-0415. In particular, if this response is not timely filed, the Commissioner is authorized to treat this response as including a petition to extend the time period pursuant to 37 CFR 1.136 (a) requesting an extension of time of the number of months necessary to make this response timely filed and the petition fee due in connection therewith may be charged to deposit account no. 12-0415.

DECISION ON
PETITION
UNDER 37 CFR 1.181

This decision is in response to the paper filed 25 January 2001, which is being treated as a petition under 37 CFR 1.181, requesting that the date of receipt for the "Request to Add the Additional Designation of the United States" is 23 November 1999.

DISCUSSION

On 25 January 2001, applicant filed the present petition accompanied by, inter alia, a copy of the original itemized postcard which was sent to the U.S. Receiving Office with applicant's letter, and a purported true copy of the "NOTICE OF CONFIRMATION OF PRECAUTIONARY DESIGNATIONS (Form PCT/RO/144)" that was filed on 23 November 1999. The postcard lists the items submitted on 23 November 1999.

MPEP 503 provides:

A postcard receipt which itemizes and properly identifies the papers which are being filed serves as *prima facie* evidence of receipt in the PTO of all the items listed thereon on the date stamped thereon by the PTO.

Accordingly, the date of receipt for the NOTICE OF CONFIRMATION OF PRECAUTIONARY DESIGNATIONS (Form PCT/RO/144) is 23 November 1999, which is within fifteen (15) months from the priority date. In addition, Check No.: 11039 in the amount of \$157.50 was received on such a date to add the designation of the US to the above international application.

Application No.: PCT/US98/22051

Dear Ms. Bidwell:

This is in response to your January 23, 2001 telephone call in which you advised us that the PCT office did not receive our November 23, 1999 "Request to Add the Additional Designation of the United States".

Please find enclosed a true copy of this request including a copy of cancelled Check No. 11039 and a copy of the postcard stamped received by the PCT/PTO on November 23, 1999.

We are also enclosing a true copy of our October 13, 2000 "Request to Republish the Application Adding the United States as a Designation", in which a copy of our November 23, 1999 request was included.

A Declaration signed by myself attesting to the authenticity of the copies of both requests is also enclosed.

Given the fact that the precautionary designation of the United States was confirmed in a timely fashion and given the fact that the above-identified Application was published without the United States being identified as a designated country, the United States Receiving Office is respectfully requested to arrange for re-publication of the Application adding the United States as a
